TO CONTROL YOUR ATV:

THE STARTING LINE

When the *Racing Screen* appears, all racers will be positioned at the starting line. Your ATV will appear just below the countdown timer. When the timer reaches zero, the race will begin.

In order to successfully complete a race, you must drive through every checkpoint in order, while avoiding obstacles and others racers.

The following information is displayed on the screen:

- Elapsed Timer: this number indicates the amount of time you have been racing on the current course.
- Directional Arrow: indicates the direction you must drive to get to the next checkpoint.
- Position Indicator: displays your position in the race. This number will change as your position in the race changes.
- Lap Indicator: indicates the current lap, as well as the number of laps in the current race.

While racing, avoid obstacles such as bushes, water, and cacti, as well as other ATVs. Bumping into these will cost you precious time, or maybe even the race itself! Also, avoid Land Mines, as these will cause you to lose the most amount of time.

THE FINISH LIME

In *Challenge Mode*, at the successful completion of a race, your racing elapsed time will be displayed. If you came in first place, you will move on to the next track. If you did not place first, you will have two more chances to compete on the same track.

TRACK ITEMS

While racing, you will find various objects scattered on the track to either help or hinder your progress. These include:

Gas Can

Colliding with this object will cause your ATV to have a burst of speed for a few moments.

Land Mine

Avoid this half-buried unexploded bomb at all costs. Colliding with it will cause you to lose valuable time.

GAME PLAY TIPS

- Follow the green arrow to locate checkpoints
- · Don't stay on the track, go off-roading to reach checkpoints
- Use nitro pick-ups to stay ahead of the competition
- Avoid land mines and obstacles
- Hold back on the directional pad to perform jumps over hills

Quick racing action! Just select your track and then you're on your way.

Career Mode

Ten races of pure, high-octane excitement await you. This is your main Career Mode where you'll need to place first or second to advance, get paid and buy upgrades for your truck.

Upgrades:

Your monster truck has four different attributes that you can increase by purchasing upgrades after winning first or second place in a race. You can also purchase nitrous. You will be granted money before your first race to purchase up to two upgrades of your choice to give you a jump-start.

Engine: Increase your truck's maximum speed in a race

Turbo: Increase the acceleration of the truck.

Tires: Increase the truck's traction and control.

Shocks: Improve how well the truck handles rough terrain.

Nitrous: Gives you a strong burst of speed.

Winning Money

For each 1st or 2nd place finish you'll win a certain amount of money depending on the track difficulty. Each one is worth \$20. You can also accumulate extra money by picking up the dollar signs on the track.

Locations

SWAMPLAND — The first area to hone your skills as a monster truck racer. Some dips and muddy areas but nothing a trooper like you can't handle!

COOKS COUNTY ARENA — The first of four arenas. This one is smaller than the rest but has a few ramp jumps and a row of smashed up cars.

AMERICAN RACEWAY — A larger arena with a simulated bog area and cars to crush.

ORANGE COUNTY RACEGROUNDS — A large and difficult track with lots of dips and hills, a bog at the end and four sets of automobiles to smash through. The opponents here are mean and so are the fans.

CHAMPION RACEWAY — This indoor track has everything but the kitchen sink thrown in. The opponents are ruthless but the payoff is big: CHAMPION MT RACER!
